Dress Design {for Paris} or Toga Design or Race:
The party attendees were divided into two teams and had to design a dress from toilet paper and trash bags. It was so much fun and a perfect compliment for the Paris Themed Party.

TWO TRUTHS AND ONE LIE ~

Taking turns, the first person tells the group three statements about himself or herself. Two are true and one is a lie. Everyone tries to guess which one is the lie. For example, you could say, "I won a prize in spelling in second grade. My favorite food is sushi. I got lost at the zoo when I was little." Everybody then holds up one, two or three fingers to show which statement they think is the lie. The player sets the record straight, then the next person goes.
